PROFESSIONAL SUMMARY

Flutter Developer skilled in building high-quality Android and iOS apps. Proficient in Firebase Authentication, REST APIs, and payment integrations like Stripe, Easypaisa, and JazzCash. Experienced with in-app purchases, AdMob ads, Firebase Storage, and FCM notifications. Strong in Google Maps and Mapbox for location-based features. Expertise in state management using GetX, Provider, and BLoC. Familiar with setting up CI/CD pipelines using GitHub Actions for seamless deployments.

TECHNICAL SKILLS

- **Languages & Frameworks:** Dart, Flutter, java(basic) Swift (basic), Kotlin (basic)
- **State Management:** Bloc, Provider and GetX (MVC & Clean Architecture)
- **Backend & Databases:** Firebase (Firestore, Realtime Database, Auth, Cloud Functions, Messaging), REST APIs
- **Monitoring & Analytics:** Firebase Crashlytics, Firebase Analytics
- **Payments & Monetization:** Stripe, jazz Cash, Easypaisa, In-App Purchases
- **Real-Time & Multimedia:** WebSockets, Firebase Chat, Agora SDK (audio/video calls)
- **Native Integrations:** MethodChannel (iOS/Android), EventChannel (iOS/Android)
- **Mobile Platform Features:** Deep Links & Universal Links, Background Services, Push Notifications
- **CI/CD & DevOps:** GitHub Actions, App Store/Play Store Deployments, R8/ProGuard for Android
- **Tools & Other:** Git, Agile/Scrum, Xcode, Android Studio, VS Code, Figma (for design collaboration), Postman

PROFESSIONAL EXPERIENCE

Flutter Developer

OVEX Technologies Ltd

07/2023 – Present

Islamabad, Pakistan

- As a Flutter Developer, I have worked on multiple projects including Eazy Tax App, Tech Destination App, and Wakhla, an eCommerce and pharmacy multivendor platform.
- Developed a new multivendor eCommerce app with store management, payment integrations, and a smooth user experience.
- Integrated Easypaisa and JazzCash payment gateways for secure and fast transactions.
- Followed the MVC architecture with GetX for clean state management and maintainable code.
- Implemented modern UI designs with animations, shimmers, and responsive layouts.
- Also created an Odoo-based app, handling both UI development and Odoo API integration for seamless backend connectivity.

Flutter Developer

FutureSol Technologies Ltd

01/2023 – 07/2023

Islamabad, Pakistan

- Developed and maintained enterprise mobile apps using Flutter
- Integrated Firebase services (Firestore, Realtime Database, Auth) for real-time data syncing and authentication
- Implemented state management with GetX and Provider to improve code maintainability
- Collaborated with backend engineers to consume RESTful APIs

- Contributed to developing the MVC architecture for an e-commerce app, with a focus on UI components and Google Maps integration.
- Transformed design wireframes into fully functional screens, including login, dashboard, and map views.
- Built reusable widgets for forms, buttons, and lists to streamline feature development and ensure UI consistency.

PROJECTS

Exam Routes app

- An Exam Routes app built with Provider for state management, integrated with in-app purchases to unlock premium routes, and Mapbox for displaying interactive maps and navigation.
- [Google Play Store](#) | [App Store](#)

Wakhla (Multi Vendors) | OVEX Technologies Ltd

- I implemented push notifications and remote config using Firebase.
- It's not just a multivendor app — it's a multivendor eCommerce store with different shops.
- The app uses GetX with the MVC pattern and includes JazzCash, EasyPaisha, and COD payment integrations.
- [Google Play Store](#)

Wakhla (Pharmacy) | OVEX Technologies Ltd

- Developed an e-commerce pharmacy app using MVC architecture with GetX and integrated JazzCash, EasyPaisha, and COD payments. Built responsive UI screens with reusable widgets for a smooth shopping experience.
- Implemented Firebase Push Notifications and Remote Config for dynamic link and content updates.

Donation App | FutureSol Technologies Ltd

- A blood donation app with API integration to connect donors, hospitals, and blood banks.
- Secure Firebase phone-number authentication for quick signup and trusted identities.
- Real-time push notifications for urgent requests, appointment reminders, and donation updates.
